

Money Back Guarantee...

Depending on the area in which your shop will be located, we will present the turnover that we are able to guarantee after 18 months.

Turnover guarantees are generally between 18000€-37000€ / month for 4h work , depending on country and location.

This is a joint effort between the franchisee and GoSmart

Normally the turnover is very much based on the owner's engagement in the business, so we need you to do the best .

Therefore, we will specify the instructions and effort needed from you and us to achieve the estimated turnover.

GoSmart input:

Strategy setup example opening hours

Marketing strategy

Digital Marketing

Event Strategy

Partnership strategy

Network strategy

Monitoring

Partner:

Digital Marketing

Execution of events

Meeting standards

Networking

Collaboration

Responding to instructions from GoSmart

Should it be the case that you do not achieve the guaranteed turnover, although you have done the required , then you can choose between 3 options.

1. Get back 50% of the invested cost and continue the partnership with Gosmart.
2. Keep the STORE but withdraw from the partnership with GoSmart.
- 3, Get back the invested amount and leave the STORE.

If the partnership for higher turnover does not work, this turnover guarantee will be cancelled.

i.e. the franchisee will get back his/her guarantee fee equal to +30% of the franchise cost.
